## The Best Investment.

You cannot possibly read more than one per cent. of the literature of the day. Why lose precious hours on worthless reading, when you can have the very best only?

This is what is given

In CURRENT LITERATURE, "from which," writes Paul D. Reese, of Athens, Ga., "I get more than from any other investment I ever made." London Vanity Fair speaks of it as a "wonderful compilation, the like of which is unknown in Europe." If you do not know it, mention this advertisement and a sample copy will be sent free. Current Literature is \$3.00 a year; 25 cents a number. Send for Clubbing List. The Current Literature Publishing Co., New York.

## THE "PRACTICAL" TROUSERS HANGER AND PRESS

Keeps Trousers "Smooth as if Ironed."

It is scientifically, strongly and compactly constructed of beautiful hard wood and nickel-plated brass parts. It is automatic in action and adjusts itself to any thickness of material. It will positively remove all traces of marks and wrinkles caused by turning the trousers up on a rainy day. It does not mark the cloth by ugly cross marks (all other devices do). It is so easy to use as to be

"QUICKER THAN CARELESSNESS," and if after a trial it does not give satisfaction return it and we will refund.

We send you free on request fac-simile letters of some duplicate orders (the strongest kind of testimony) and our interesting circular.

PRICE, 75 CENTS EACH. Sent post-paid on receipt of price in stamps or otherwise. Or we will send, express paid, SIX of the PRACTICAL TROUSERS HANGERS and TWO CLOSET RODS (which are described below) for \$4.50. We sell hundreds of such sets. A perfect Christmas gift.

**PRACTICAL NOVELTY CO.,**  
Rooms 1 to 4 Lumbermen's Ins. Co. Bldg., Phila., Pa.

Also the PRACTICAL CLOSET ROD, price 25 cents, post-paid. It is made of wrought steel, nickel-plated, is 9 inches long and constructed with a detachable socket, rendering it very easy to put in place—a truly good thing to increase the capacity of a closet.

Did you ever go to your closet and find several coats, a pair or two of trousers and perhaps some of your wife's dresses, all hanging on the same hook and on top of just the garment you wanted? Well, this never happens when you use our devices and arrangement. The picture shows why this is and indicates the capacity of a Rod.

PHOTOGRAPHS IN COLORS.

We are now prepared to produce reproductions in colors, of any desired subject, by our photogelatine process, in large or small numbers, and with uniformity, both by hand and improved power presses, which we are now adding to our plant.

PHOTOGRAVURES PLAIN AND IN COLORS.

We have the largest and most complete photogravure plant in the country, and by recent improvements (patent applied for) we produce improved plates at greatly reduced prices. From the superior quality of these plates, photogravure printing can also be done at lower prices than formerly. We also make photogravures in tints and colors of excellent quality at reasonable rates.

PHOTOGELATINE PRINTING.

We continue to do the highest class of work by the photogelatine process, which still maintains its superiority over all other processes for extreme delicacy and photographic fidelity. Correspondence solicited and sample copies of our magazine, "Sun and Shade," containing specimens of all classes of our work, forwarded on receipt of half the price (20c.). We have a large number of subjects from which we can supply editions suitable for book illustrations, calendars, menus, etc., etc.

## Appletons' Popular Science Monthly.

For the last half century scientific methods of study have been gradually extending, until they are now applied to every branch of human knowledge.

The great problems of society are making urgent demands upon public attention. Science furnishes the only means by which they can be intelligently studied.

This magazine gives the results of scientific research in these and other fields. Its articles are from the pens of the most eminent scientists of the world.

It translates the technical language of the specialist into plain English suitable for the general reader.

Among the subjects discussed in its pages are: Psychology, Education, The Functions of Government, Municipal Reform, Sumptuary Legislation, Relations of Science and Religion, Hygiene, Sanitation, and Domestic Economy, Natural History, Geography, Travel, Anthropology, and the physical sciences.

Prominent among its recent contributors are such men as

ANDREW D. WHITE,  
DAVID A. WELLS,  
APPLETON MORGAN,  
JAMES SULLY,  
WM. T. LUSK, M.D.,  
FREDERICK STARR,

GARRETT P. SERVISS,  
DAVID STARR JORDAN,  
EDWARD ATKINSON,  
HERBERT SPENCER,  
EDWARD S. MORSE,  
T. MITCHELL PRUDEN, M.D.,

C. HANFORD HENDERSON,  
CHAS. SEDGWICK MINOT,  
G. T. W. PATRICK,  
M. ALLEN STARR.

We take this opportunity to call attention to several changes that are introduced with the November number, which begins the forty-eighth volume of the Monthly. In order to more specifically identify the magazine with a great publishing house, it has been decided to precede the old title with the publishers' name; so that hereafter the journal will be known as *Appletons' Popular Science Monthly*. Coincident with this, a few alterations have also been made in the several editorial departments, which it is hoped will add to their value and interest.
